Natural Avalanche b/w Cooke City and Silver Gate

Date Mon, 02/27/2023 - 18:05 Activity Skiing

I think this natural avalanche happened about 24-48 hours ago. (pretty sure it wasn't there 2-3 days ago?). It's an E, SE aspect, about 9200', between Cooke City and Silver Gate.

Region Cooke City Location (from list) COOKE CITY Observer Name Beau Fredlund
