

Photos of Natural on The Fin

Date

Fri, 01/12/2024 - 11:05

From email Jan 12: "Natural avalanche on the Fin of Mt. Republic observed this morning.

The timing of it looks to be about 36-48hrs ago.

Looks like it might have started at the new/old snow interface, and then stepped down into deeper layers mid face.

Quite an impressive avalanche!"

Region

Cooke City

Location (from list)

The Fin

Observer Name

Beau Fredlund
