

Continuous Collapsing at Bacon Rind

Date

Sun, 02/11/2024 - 10:45

Activity

Skiing

We got the same feedback that Dave and Doug did on 2/5/24 - collapsing every time we stepped out of the skin track or turned with any force, as well as a few sizable collapses triggered from inside the skin track. Very touchy, skied very well. Stayed well away from avy terrain.

Region
