## **Skier-triggered Avalanche in Super Couloir at BBowl**

Date Wed, 11/06/2024 - 15:15 Activity Skiing

From IG Message: "Skier triggered Pocket in super <u>couloir</u>. Wasn't very unexpected, the skiers left side felt a little slabbier than the skiers right and tried to stay off it but got blinded by a sick face shot. Triggered going over a sharky rock spot, not very fast moving and easy to ski out of. Snow depth was 2-2.5 feet"

Region Bridger Range Location (from list) Bridger Bowl
