

Skier Caught and carried in Bridgers pinnacle's

Date

Wed, 03/19/2025 - 11:30

Activity

Skiing

Skier caught and carried approx 100 yards thru pinch of main pinnacle chute. Skier was not buried but did lose ski. Suspected culprit of avalanche was cornice drop or skier above sliding down into us. We observed little to no movement or activity before dropping into line besides prior day cornice drop slides. Slide footage can be found @0:55 mark of linked video
