

Skier Triggered Wind Slab - Ice Cream Scoop

Date

Wed, 04/02/2025 - 13:30

Activity

Skiing

Ice Cream Scoop on Skiers Left Side in Gully, North [Aspect](#), 9280'

SS-ASu-R1-D1-S

One of the few spots on the gully where there are no trees as a wind block on the skiers left (south) side. Noticed a few cornices on south side of gully where it is exposed to W/SW/S winds. Skier took a left turn under cornices to scrub speed and released a 6-10" windslab 40' wide which ran 10' at most. Super soft and easy to ski through.

Region

Cooke City

Location (from list)

Woody Ridge
